

Alinma Bank - Internal Audit Report 2023

Section 4: Capital Adequacy Assessment

The bank maintained a Capital Adequacy Ratio (CAR) of 19.5% throughout 2023, above the SAMA minimum of 10.5% including the capital conservation buffer.

Credit concentration in real estate reached 18.2% of total exposures.

Stress testing under SAMA severe scenario confirmed adequate capital headroom.

Liquidity Coverage Ratio (LCR) averaged 142% in Q4 2023.

Recommendation: expand interest rate sensitivity analysis for ICAAP section 5.3.
