

EBA Guidelines on ICAAP and ILAAP (EBA-GL-2016-10)

Institutions shall conduct Internal Capital Adequacy Assessment Process annually.

ICAAP shall cover all material risks including credit, market, operational, concentration and interest rate risk.

Stress testing and scenario analysis are mandatory components.

Governance: senior management and board accountability for ICAAP outcomes.

Disclosure and documentation requirements for supervisors.

Section 5.3 requires sensitivity analysis of interest rate risk.
